

Name: Isaya Marwa.

Email: [isayamarwa02@gmail.com](mailto:isayamarwa02@gmail.com)

Nairobi, Kenya 00100.

+254 112587680 /+254742254897.

### **Objective.**

I am a passionate and adaptable software developer with a focus on business information technology, eager to contribute to open-source projects and cutting-edge solutions. Seeking opportunities to leverage my skills in object-oriented programming, database management systems, software engineering, and web development to create meaningful impact in the tech industry.

### **Education.**

Bachelor of Business Information Technology, Mount Kenya University, Nairobi, Kenya. Hoping to graduate December 2024. Course work Object-Oriented Programming, Database Management Systems, Operating Systems, Software Engineering, and Web Development.

### **Skills.**

Programming Languages: Java, Python, And JavaScript

Database Management: SQL, MongoDB

Web Development: HTML, CSS, React

Operating Systems: Windows, Linux

Version Control Systems: Git, GitHub

### **Projects.**

E-commerce Website - Developed a responsive and user-friendly e-commerce platform using React and MongoDB for database management.

Inventory Management System - Designed and implemented an efficient inventory management system using Java and MySQL.

### **Experience.**

Software Development Intern, XYZ Tech Solutions, Nairobi, Kenya, summer 2024

collaborated with a team to develop and test new features for existing software products.

Assisted in troubleshooting and resolving software defects, enhancing overall product performance.

### **Achievement.**

Contributed to building and maintaining the organization's website, increasing online visibility and user engagement.

### **Interests.**

Reading tech blogs

participating in hackathons

hiking and photography
